

MR1683-494
Appln. No. 10/657,200
Reply to Office Action of June 17, 2005

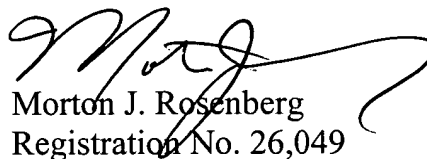

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 17 June 2005. In the Official Action, the Examiner has found two inventions, namely Group I directed to Figures 2-5 drawn to a thruster including a cylinder disposed in the main body; and Group II directed to Figures 6-7 drawn to a thruster having an air chamber directly formed in the main body. The Examiner has required that the Applicant chose Group I or Group II for further prosecution in this case.

By this Response, Applicant elects Figures 2-5 for further prosecution. Applicant further believes that Claims 1-5 read on Figures 2-5.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
FOR: ROSENBERG, KLEIN & LEE
